

Productive Idea 2020 business series win for IntLog! QUICK SPACE

We have participated in the Productive Idea 2020 competition in the corporate series, which first became the winner of the C-regional competition!

Judges' comments;

"A very clever invention. Also the implementation in the long run, i.e. business with this idea has already begun. It includes a clear international capability and the patent is a valuable addition in this case."

"The application and its appendices already show that the productization has been taken far. The idea is really good, the demand internationally is certainly enough! I especially appreciate the fact that the product has already been developed in principle" international glasses with eyes "."

"A great idea that, if successful, will reduce not only logistics costs on product prices but also emissions."

The regional competition progressed to the national final, where there was a 25% chance of winning the competition.

HIPHURRAA, IntLog won it! Because of this, our logo is on display at Time Square in New York, GREAT or what?

THANK YOU - our professional employees, partners and customers - Without you, there would be no us and no Quick Space product!
